AQUACULTURE

# YOUR TRUST ED PARTNER

# VALUE AL THE DAY

## GENETIC SELECTION PROGRAM

Through our breeding selection program we choose broodstock fish that are the best suited for our farming conditions and we select for parameters such as fast growth and strong fish health. The best performing fish are chosen as broodstock to produce the next generations of sea bass and sea bream juveniles.

## JUVENILE PRODUCTION

Producing more than 180 million sea bass and sea bream juveniles that optimize growth performance and resist to natural viruses and diseases. Sea bass and sea bream spend four months in our land based hatcheries, before being released to the sea water pens.

## CERTIFICATIONS

Ilknak facilities and production are certified according to the standards of ISO 9001:2015, ISO 22000:2005, BRC Global Standards, IFS (International Featured Standard), FDA (The Food and Drug Administration), ISO 45001, ASC, GLOBAL GAP, ISO 14001:2015,

## OFFSHORE SEA FARMING

The location of our sea water farms sites are carefully selected to give our fish the best environment to grow. Our farms are operating with the highest welfare standards in the sector.

## PACKING & PROCESSING

Our packing and processing plants supply a wide range, of products from fresh whole round fish to ready-to-eat frozen products, meeting the strictest quality standards and customer specifications.

## MARKETING SALES & DISTRIBUTION

Engage in partnerships with customers. Targeting in long term collaborations. Distributing high quality products all over the world. Great experience in meeting needs of big retail chains.
